Rafael Hernandez Airport (BQN), Aguadilla P.R.															
SUBJECT N220N Accident Investigation															
DIGEST On May 19, 2017 Inspectors from this office visited BQN to investigate various aspects of Aircraft N220N accident, we spoke with Mr. Lopez, he rented the PIC the hangar to stored the aircraft when he was in town. We learned that the PIC and his family visited BQN very frequently since December, 2016. the first 2 to 3 times that the PIC visited BQN he was accompanied by an older man, probably in his 80's that identified himself as the flight instructor, the presumed instructor stated that he was supporting the PIC because he have low hours of flight time in the aircraft and the aircraft was not easy to fly, he is from Tennessee and was very vigilant when the fuel crew fuel the aircraft. In regards to the PIC, Mr. Lopez stated that Mr. Ulrich was a very calmed individual, he saw him and his family before the flight and everyone was relax and in a good mood, he informed that the aircraft arrived on May 12, 2017 and was left at the ramp (not the hangar) the complete weekend. He also mentioned that he or the PIC were not present at the time the aircraft was fueled but argued that the fueler assigned to do the job have made mistakes before and we should look closely that operation. Aircraft was not maintained during their visit. only stored.															
CONCLUSION, ACTION TAKEN, OR REQUIRED
